Jim,

There's a public hearing/meeting in July...more to come. I just found out my office sent out a scoping letter for Space X. Here is the info:

http://www.faa.gov/about/office_org/headquarters_offices/ast/environmental/nepa_docs/review/documents_progress/spacex_texas_launch_site_environmental_impact_statement/

SPACE X NOI

EPA

SCOPING FAA.pdf scoping_Space ...

Hi John,

Yes, I was able to access the website. Let me know about the potential travel opportunities. We are very concerned about this project and the potential impacts. Also, has EPA received anything official concerning the Space X project on Boca Chica island?

Thanks,
Jim Herrington

Could be for trying to lure Space X, but officially, the EIS is not going to discuss it. The purpose and need as stated in the EIS is to improve public safety (alternative hurricane evac route), enhance local and regional mobility, and *to support economic development*.

To my knowledge, this is the first we've heard about it. Wetlands and Laguna Madre will be significant issues. We also need a marine and coastal expert on this one. Texas FHWA has been very friendly about the Harbor Bridge project in Corpus and I will be visiting the Corpus site later this month. I'm sure we can get them to pay for a few of us to travel down to the valley to see this project and attend meeting.

Jim, were you able to get to the website and download. I can always send you a CD. The CD has volumes III and IV.

Thank you,

Yes, this project is new to me and it is a significant action. We are planning to comment on the DEIS. I don't remember any pre-application meetings in the past. I wonder if EPA is having meetings or site visits with the sponsors? Wetlands should be involved and I will be the lead contact.

Thanks,
Jim Herrington

I cannot access those documents but I will need to comment on this DEIS. I wonder if John could send me those documents or a link? Is this road improvement project necessitated by the proposed Space X project?

Thanks,

John, I would say we probably have nothing on this yet. Doesn't look like they have started the 404 application process. The DEIS notes that..."The USACE permit application *would be requested* under Section 404..."

goes on to say..."Following approval of the draft environmental impact statement and the public hearing, the final

environmental impact statement and permitting process would begin. The recommended preferred alternative would be delineated for wetlands and other waters of the U.S. and the appropriate permit would be prepared and submitted to the USACE. The permit application would include a description of all proposed impacts to wetlands and waters of the U.S. within the proposed ROW and a proposed mitigation plan."
Also says the Corps is a "cooperating agency."

(cc'ing Jim H. - have you seen anything on this highway project? big wetland impacts)

"Potential wetlands and other waters of the U.S. occur in various sizes within the proposed 2nd Access Project study area. Most obvious features are associated with the Laguna Madre. All 11 build alternatives would potentially result in impacts to wetlands. *Potential impacts range from a minimum of 129.81 acres (Alternative 10) to a maximum of 243.68 acres (Alternative 9). Alternative 6 (the recommended alternative) would impact 139.14 acres of wetlands.* Because the location of staging areas, borrow areas, placement areas, and other Project Specific Locations will be determined by the contractor, the contractor would be responsible for any required permitting."

Barbara,

If either EC or EM has received any information, letters, or 404 related materials from the Corps, or has had any coordination on this project whatsoever, please let me know.

REQUEST FOR ASSOCIATE REVIEW AND COMMENT PURSUANT TO RESPONSIBILITIES UNDER SECTION 309 OF THE CLEAN AIR ACT AND THE NATIONAL ENVIRONMENTAL POLICY ACT (NEPA) ON THE SUBJECT DRAFT ENVIRONMENTAL IMPACT STATEMENT (DEIS) for the South Padre Island Second Access Project, State Highway 100, Across the Laguna Madre, To Park Road 100, Construction of a new Location Highway Facility, USACE Section 10 and 404 Permits, Cameron County, TX

The subject DEIS has been forwarded for you and/or designated staff to review and to provide comments in your areas of jurisdiction and expertise as required by Section 309 of the Clean Air Act pursuant to the National Environmental Policy Act. To accommodate the established review schedule, we are requesting comments by **COB Friday, July 13 2012**. We have attached an internet link to the DEIS below. Please call me at the number listed below or e-mail me for assistance. Please note at this time, only Volumes I and II can be downloaded.
